

Vaughan Chopper Pumps

- **Equipment:** Vaughan Chopper Pumps are not be confused with other types of chopper, grinding or macerator pumps. Manufactured for over 50 years by Vaughan Co. (USA), the unique Vaughan Chopper Pump has proven itself in some of the most challenging and severe duty wastewater and solids pumping applications across the municipal, industrial and agricultural sectors.
- **Provider:** Pump Systems Ltd, Christchurch, NZ
- **Further Details:** Matt McEwen, Projects Manager, +64 3 352 4180
www.pumpsystems.co.nz; www.chopperpumps.com.au
- **Characteristics:** Reliably pump difficult waste material containing hard, stringy and fibrous solids that cause problems for generic pumps; available in a range of configurations including horizontal end suction, vertical wet well, submersible and self-priming; heat-treated and hardened components provide high resistance to impact and abrasion; pump models and sizes available for flow rates up to 880 L/s; non-clog performance guarantee on every pump.
